CENTRAL ALBERTA WOOL GROWER'S ASSOCIATION.

Lacombe, May 15, 1919.

Dear Sir—

We have been advised that the Government Graders will be starting out very shortly. In Western Canada Mr. Hollindrake will be in charge. He comes from Boston with high recommendations from the American Woolen Company. It is, however, stated that not sufficient graders can be secured this year to cover all points, owing to labor conditions, but Lacombe is fortunate having been promised one, and our Directors have asked that he be at Lacombe on or before June 15th.

We would therefore advise our growers to be ready to bring in their wool not later than June 15th for grading.

As soon as we are advised definitely, further notice will be published. It is desired that all growers will be ready.

Latest Wool markets received from Canadian Co-operative Wool Growers are as follows:

Standard strong stapled bright types.	Western Domestic Clean Basis
Fine	\$1.50 Fine
Fine Medium	\$1.40 Fine Medium
Medium	\$1.18-\$1.20 Medium
Low Medium	.98 Low Medium

Short clothing or weak-stapled wools from 5 to 9 cents less for similar grades.

Little movement except in Fine Grade and virtually no sale for Low and Coarse.

The Wool Grower's Assn. have received a consignment of Kemp's Branding Fluid, for marking sheep, and all desirous of procuring can get a supply from the Secretary.

Wool Twine can be purchased at the local hardware stores.

Yours Truly,
A. W. Sharpe—President.
Jesse Fraser—Secretary.

Gull Lake Townsite

The H. B. Land fronting on the east side of Gull Lake has been sold, and the new owner is subdividing it into resort lots. This is a nicely situated piece of land, and will make a splendid addition to Lacombe's popular summer playground.

A Splendid Stallion

A. C. Bruns has purchased from A. Webster, the celebrated Clyde stallion "Baron of Moosomin." This is one of the best horses in the district, having won the championship at Calgary and reserve at Edmonton as a two-year old, and his colts have been heavy prize winners at all the fairs in Western Canada. Anyone interested can see pedigree and get all particulars from Mr. Bruns.

At The Vet.

The management of the Veteran theatre wish to announce that in order to take care of the Saturday night crowds they are increasing the seating capacity considerably. In future there will be employees to show late comers to seats. The crowds that attended this very popular picture house on Saturday night last broke all records and judging from the enthusiasm of the crowd, the pictures shown were well received.

Next Wed. we have a treat in store for lovers of good music. The Havasians will be with us for one night only. After the show the hall will be cleared and a dance will be held. The music will be the best, so come along and enjoy a few hours of dancing. Refreshments can be had at any hour through the evening at the Cafe across the way from the theatre.

At The Rex Theatre

Tonight and Thursday, the special feature at the Rex Theatre will be Barbara Castleton, the beautiful screen artist, in that sweetest of all plays "The Heart of a Girl." This play is said to be a super production and well worth seeing.

On Friday and Saturday our old friend Charlie Caplin will again be with us, in a laughable production entitled "Work." Charlie is at his best in this play and it is a laugh-provoker. There will be a six reel feature in addition.

On Monday and Tuesday the program will consist of Pathé British Government War Pictures and other pictures from France, and the five reel drama "The Great Adventure" and a new comedy will fill up the evening.

Peace Terms Might Have Been Stricter

Prominent citizens were adverse to expressing any opinion at the moment upon the peace treaty terms when seen by a representative of The Calgary Herald Thursday morning. "I want to first study the terms a little" was the invariable answer to the question.

There was one exception, however, and that was in the case of A. Haselden, president of the Great War Veterans Association, who considers the terms altogether exceedingly lenient, and might have been a little more stringent. "One wonders what kind of terms would have been presented by Germany had she been victorious," he remarked.

"The great point, however is the question of indemnity," he continued, "and it is but idle to suggest that Germany after all the suffering she has caused should be allowed to escape free in this respect. For France alone the indemnity should represent the payment of the indemnity of 1871 plus interest 10 per cent. for the intervening years, with a new payment one hundred times as great as that which was collected from France in 1871. She deserves all this."

Referring to Canada, Mr. Haselden said this country should receive sufficient indemnity to pay at least the \$2,000,000 bonus scheme to reimburse Canadian soldiers for what they have lost by giving up their civil occupations and donning the uniform for the protection of the empire.

The idea of Germany not paying any indemnity he concluded is contrary to all principles of justice. A thug should be made to make reparation for his crimes. "I hope that when the final details of the peace terms are announced Canada will receive a just share of the war indemnity so that the country will be able to look after the returned veterans," said Dr. M. C. Costello, former mayor of Calgary and now president of the Canadian Club. "Although the reports which I have read are very meager so far it is quite obvious that they will guarantee durable peace in the world. It will be no longer possible for any one country to start such a terrible war for they will not be able to get world power."

Dr. Costello said that Canada played its part nobly in the war and it is only fitting that the Dominion should get part of the indemnity not to help pay off any of the war debt, but to assure the future welfare of the soldiers who fought and have returned. Calgary Herald.

Cattle Loss
 —O—
 Calgary, May 12.—The cattle loss in south Alberta will not be more serious than anticipated, was the statement of J. M. Cameron, general superintendent of the Alberta division of the C.P.R. Mr. Cameron has just returned from a tour of inspection especially in the Irian district, where the recent blizzard did most damage. He reports that the loss amongst the cattle will probably run to about 25 to 40 per cent. Many of these animals he asserts, were not of the scrub class but of good quality. Several gangs of men now engaged in that district skinning the animals. The hides were worth 10 cents a pound.

One stock raiser had a wagon load of hides. "These represent 10 car loads of stock," he remarked with deep regret to the superintendent.

Although much loss in cattle has been experienced, Mr. Cameron states that they are nevertheless optimistic at the present crop prospects. Conditions in this respect were never better. "The growth is the most uniform I have ever seen," he said "and there is an abundance of moisture in the ground."

The chairman of the German peace delegates sat while making his insulting address to the Allied peace delegates. That may have been intended as an insult. One is inclined to think so in view of the fact that no reason was given for the strange occurrence and no excuse offered. The Germans evidently does not know how to be chosen any more.

Among other matters of greater or less moment occupying the attention of western premiers at Ottawa just now is that of bringing together the scattered fragments of Liberal party once more. Alberta's own Mr. Stewart is there and we are told he has at last come out in the open in an all unice with the anti-conscriptionists. The premier of this province is not a wise politician; he does not even pick his advisers wisely.

Lacombe High School Base Ball Team. The Lacombe H. S. Base Ball team, were victorious in two games played between them and the Red Deer team. The first game was played at Red Deer on Wednesday last in which the local team defeated the Red Deer team by a score of 3 to 4. This game was the first baseball all through as can be seen by the score. The pitchers for both sides could not be beaten. The return game was played here on Saturday afternoon last and was just as fast if not faster than the previous game. Red Deer was defeated in this game by the close score of 4 to 5. Base Ball Fans keep your eyes on the Lacombe High School Team, as they are going to show real playing this season.

Cream Shippers

Patronize your Home Creamery

You have a creamery in your own district that is a manufacturer of high dairy products. We have the reputation that follows quality, we can show more prizes for quality than any other creamery company in Canada, therefore you do not need to ship your cream to Calgary or Edmonton for skill in manufacture, efficient service, or right prices. We do not employ any special agents or canvassers for you to pay for. It will pay you to think it over.

Now that Spring has sprung, ship your cream to Lacombe Creamery.

Payments made prompt every week, or cash.

FRIENDS THOUGHT HE WOULD DIE

"FRUIT-A-LIVE" Consumed Dyspepsia and Restored His Health.

MR. ROBERT NEWTON.

LITTLE BRAS 3'0", C.B.
"I was a terrible sufferer from Dyspepsia and Constipation for years. I had pain after eating, belching gas, constant headaches, and did not sleep well at night. I lost so much weight—going from 185 pounds to 140 pounds—that I became alarmed and saw several doctors who, however, did me no good. Finally, a friend told me to try 'Fruit-a-Live'."

In a week, there was improvement. The constipation was corrected, and soon I was free of pain, headaches and that miserable feeling that accompanies Dyspepsia. I continued to take this splendid fruit medicine, and now I am well, strong and vigorous". ROBERT NEWTON.

Escaped Murderer Is Again Captured

Toronto, May 8.—Frank McCullough, the condemned murderer of Youngstown, Ohio, who escaped from Toronto jail some weeks ago, was captured this morning in the cellar of a house in the lower section of this city. In the meantime the date of the execution of the sentence had been extended till June 13.

McCullough was captured on Bathurst street just around the corner from a livery stable where he killed Acting Detective Williams.

The peace terms must be very nearly all right from the allied viewpoint at least. Thus far there has been nothing but soft pedal criticism of the terms by those perpetual critics, the English newspapers.

A member of parliament has made a vicious attack on the Canadian naval service. It would have been strange indeed if this single branch of the service had escaped any knocks while all others got them.

If the Dominion government does not intend taking a referendum on prohibition this year it is reasonably certain there is no intention of making any change in existing law during the intervening time. That will be bad news for those who had hoped for some relaxation in the act.

Of course the peace terms might have been more strict, but would any good purpose have been served by turning the screws harder on Germany? The whole word as to indemnities has not been spoken yet, which is something that should be borne in mind. Austria, Bulgaria and Turkey have yet to be told what their liability is.

\$25.00 Reward

The above reward of Twenty Five Dollars will be paid to the person securing information leading to the apprehension and conviction of the party or parties destroying property belonging to the Town of Lacombe and especially property in the Cemetery, Lacombe Alberta, May 14 1919. By order of the Council of the Town of Lacombe.

N. B. Carruthers Sec.-Treas.

An Oiling System That Can't Be Beat

BESIDES needing only one adjustment for perfect operation, the Primrose separator has a splash oiling system—the best method of oiling in use today. A quarter turn of the handle sends a plentiful supply of clean, fresh oil to every bearing, including the neck bearing. A window in the side of the frame tells you when the oil is at the correct level, and—here is the most important feature of all—no new oil is poured in, the used oil is siphoned out into the waste can so that the oil in a Primrose separator is always a good, clean lubricant.

Where can you beat that system? Good, clean oil, supplied to every bearing at the start—no chance to ruin your machine by forgetting to turn on the oil—no danger of running with any bearing dry—no chance for oil to get into the milk bowl, or to leak through the frame, or to come out anywhere except into the waste tank.

The Primrose is a real cream separator. Come in and let us show you why it is the best machine on the market today, bar none.

Bentley News

We would like to call the attention of the village council to the need of some more sidewalks in the village. The rainy season will soon be upon us we expect, and hope, and then mud will reign supreme. There are several places that need crossings and walks badly. The main corner needs a crossing in the worst way on the south side. Everyone who goes to the station has to wade through the mud and lose their rubbers, more or less to get there. If the crossing were put in, there would be at least a bottom to the slush and once over the grass will make very good travel. Furthermore, it is only fair to the Merchant's Bank that a walk should be laid across the road in front of their lot. We cannot expect business to Patronize our town unless we give them the common conveniences of a business centre.

A walk should be laid to the present premises of the co-operative store. This might be only temporary and could be taken to some other part of the town when it appeared that the building was going to be vacant again for any length of time. There should also be a sidewalk built on both sides of the street at least one block east of the church and school corners. Here we have one block well built up with very nice houses, the property fenced, etc., and no side walk, and the frontage is quite wet and disagreeable in wet weather. He might just say here that it is quite evident that the council is not out to benefit the members individually because only one of us has a side walk to his property and it is only a narrow gauge at that.

There should also be a walk on the north side of the main business block. It is most unfortunate that the owners of lots and the council cannot come to some agreement whereby a sidewalk could be built in front of these stores, with the understanding that should the building be moved to the lot frontage at any time, the village could move the walk out.

There are doubtless other places where walks are needed, but these places are really pressing for attention and should be attended to at once. The council has a good pile of lumber on hand to start the job. We think someone could be found to do the work. Do not let us wait until the mud is here good and plenty, because it cannot be properly done then.

Mrs. Darnon, Sr. has returned from an extended visit with her son, Harry at Chigwell.

Mr. Wm. Weisse and Mr. N. S. Nelson are following the lead in the "paint up" campaign and are giving their residence a fresh coat for the spring and summer.

Pte. W. J. Meredith and Pte. A. P. Damant are expected home from overseas this week. We give them welcome.

Pumps and all pump fittings at Morrison and Johnston, Ltd. Bentley.

Mr. and Mrs. John Ellsworth are leaving this week for Edmonton for a short visit.

Mr. S. M. Bolton paid a business visit to Calgary last week.

Messrs. John M. Fawcett and J. R. Hutton attended the Annual Church District meeting in Clive on Wednesday and Thursday.

The Y. P. S. are busy these days leveling up for a tennis court on the grounds west of the lumber yard. A large number were out Friday night armed with rakes, battling with weeds, roots, stones, etc. On Saturday night the young people took a holiday when seven car loads went into Lacombe to see the pictures and have strawberries and cream, etc. A very pleasant outing is reported.

Mattresses, look our stock over, Morrison and Johnston, Ltd. Bentley.

If you have not already done so, take a look at the church announcement this week and be sure you arrange to accept the invitation to the Annual church supper. The hour has been set at 8 o'clock, so that everyone could be on time. The plan is to have everyone sit down at once to an old fashioned supper where everything is on the table and you help yourself. After the supper there will be some readings and musical selections and the reports of the various departments of the church work will be given and discussion is invited. The children will be provided for in the club room and the Adults in the church. The only invitations issued are in the church announcement and the one you read is for you.

A person in Bentley has offered to provide free of charge, perennial plants to all parties owning lots in Bentley Country if they will have them fixed up and cared for. Once this is done and the

plants set out and rooted, very little attention will be required from year to year to keep the lots in a pleasing condition. Some cemetery Companies have a contract by which a lot of owners are bound to keep the lots green and clean. Apparently there is no such condition in regard to the Bentley Cemetery and there has not been a great deal of attention paid in this matter in past years.

The cemetery should be one of the prettiest spots in the community. We are fortunate in having a man living near the cemetery who is an experienced horticulturist and will undertake to take care of the lots. Anyone who wishes to act upon this suggestion, and we urge all interested parties to do so, should call and see Mr. Popplewell or write to him and arrange to have the cemetery lots cared for.

What is the Matter With Prohibition

Dear Editor:

There are a great many things that are wrong, were wrong in principle first, time and unscrupulous ingenuity are making them worse. The law of God says "Thou Shalt Not," and He put more common sense law in His ten commandments, than the whole world has accomplished by legislation. With childlike simplicity He covered not only prohibition, but every other phase of human government. How much time is being wasted; how much time is being lost, idled away by a bunch of idlers in parliament who wish principally to discuss some little hobby with a view to gaining popularity with a class of people and allow matters of importance to the country be thrown into the discard. So far every move made with regard to prohibition has been made with the sole object of "standing in" with certain elements, and has been from the frying pan into the fire and back again.

If God had been as wise as some of the great legal "nunsells" He would have said "Thou Shalt Not Touch Not" and made an eleventh commandment, and would have condemned one of His greatest assets and saved his present day "superiors" all this trouble and misunderstanding. Our modern term for this great asset is Alcohol (not booze, John Barleycorn, fire water, reeve, and the like according to the station, and it is not only bountiful but essential to human life. So essential is it that not one living thing has its life except on it, one thing could exist without it, and as vegetable life would go, so would the human, and were I to extract the last drop of alcohol from your body your last word would be "Jack Robinson." So bountiful is alcohol that the whole world is an alcoholic ocean, neither increasing nor diminishing its volume, and a million different varieties would be too small a figure. Every time you place your foot down you stand on barrels and more barrels of it. Even the dead things are full of alcohol. A good sized hay stack has enough alcohol in it to last a cow all winter. The straw, the corn stalks and the rubbish pile abound in alcohol, and yet the people stand and wonder and talk prohibition and banishment. They tell me that by distilling, crude oil is turned into a high quality of alcohol, that is great for motors. Take the four legs of Old Dobbin, put on four wheels, pour in a few quarts of this beverage and a dose of oil, and you will raise his speed limit from ten miles an hour to a hundred. Prohibitionists have overlooked a very vital point here—they have failed to designate the human varieties from the horse stuff. Last year I had a sick cow that got mired, and when we found it was nearly dead, and her eyes white and dim. I pulled her out

of the boys who stood in cold muddy trenches shivering and numb to the core, while a bunch of "hoodlums" at home hollered their heads off against the issue of rum that saved their lives and carried them to Victory, and brought many of them home again. How many aged and dear friends are still producing longevity by the wise use of "bitters" I've heard that Methuselah could have scored another figure had the wine he used been as old as himself, and I believe it.

I do not contend that people should drink, and continue to drink alcohol, but I do mean that too many people have tried out too many experiments to be fooled, and too many people are trying to frame up a prohibition law with a hole in it as big as a wood chuck. Big hole or little hole makes no difference; what's good for the goose is good for the gander; while the biggest part of the odor was from making a skunk out of the prohibition act—legislators thinking that they could fool the com-

mon herds, while they, like, sleek and glossy, stalk around like prophets. But it is soon, and the whirlwind rips.

"Uncle Charley" said, "prohibition may be a good thing today, as it will kill off all the old ones in a year or two and the youngsters won't know any better. No great loss without some smaller gain, is the way his long headed interpretation pans out. Almost every intelligent school boy today knows more about alcohol than his old grandfather did at three score and ten. With the old man it is only a matter of Nature, and no sin to drink alcohol. With the boy it is now a matter of education and science, and with his old mothers' tea pot and some ingenuity will turn you out a glass of liquor while you wait. It is estimated that 5000 tea pots in Alberta can do the same trick, while the old only boils the potatoes. It means a lot for Canadian prohibition, and the Yankee is going to be as smart as we are. Prohibition and education are sure going hand in hand here. They say the ordinary traveler must be given you several different recipes for manufacturing "booze," and if you cannot get a recipe from him just squeeze the juice from some grapes and forget it for a while. God will make it into alcohol for you.

SID AND HIS LETTERS.

Laughable letters from a boy from the slums of a city, written to his friend Bill.

Written by Barney Halpin.

Dear Bill:—

I've sure very bad nose too tell you, mary went to Winnapig an fel in lav with a nuthur fell, she got this fell to rise to me, gosh it us sum luter belev me, i tel you some of it, it went like this:
Dearest sid:

Altho I am many miles away from you, my heart still goes back to the farm. I can imagine you getting up as the round oval of the sun peeps above the horizon, clothing all the fields and forests in its radiant glow. I can see you getting the clear white fluid from the cows and feeding the pigs in the barn yard, how I wish I were back by your side, wandering on Sunday afternoon in and out through the beautiful trees, just beginning to bud, and resting by the side of some babbling brook that winds its way through the fastnesses of the forest on its way to the great sea that lies to the eastward. I miss the beautiful singing of the feathered tribe and the chirping and chattering of the squirrels and gophers. I also miss the spreading fields with the tiny shoots beginning to rise from the dark earth up into the pure exhilarating air of the early Alberta spring. Gee whiz I cant see any cents in riding a luter like that do you bill, the ending is what gits me, it sez, Well darling sid i must kloze now as i have a date with my beautiful Romeo. Yours with the love that lies deepest in my heart, Mary. you kaint trust gurls can you bill, if you wanta make em lay you an nobdy else, you jasta keep em in yure site all ov the time, i don't blame the boys fur likin her she is so good lookin evrthin. How is Helen Brown gittin on these days tell her to rite to me as i am awfully lonely without mury, tell her i like her betteren ever sins i kan not sea her. Well bil i hav not time to rite you a very long luter to day as i am awful busy weedding the garden again. Good bi fur this time. Yours with the luv that lies deepest in mi hart. A Great Farm

What can be done with our wild farm lands when one makes up his mind to "get there" has been demonstrated by Messrs H. M. Trimble and H. G. Morrison on "The Union Ranch," a section of land they purchased last year. One year ago this farm was wild, brushy land—today it is growing four hundred acres of the prettiest crop of wheat and oats to be seen in Alberta or anywhere else. Last spring H. M. Trimble and some men Fordson tractors and some men and teams, started to tear up the soil on this farm. Brushing plowing and seeding was done at the same time, and about three hundred acres seeded to flax, wheat and a fair crop was gathered. Breaking was continued during the season, and over four hundred acres were ready this spring, and with an early start this huge field was sown to oats and wheat. There is no garden plot in district in better shape; there is hardly a root to be seen, and the grain is sprouting up as if attempting to make a record. It is well worth anyone's time to run out and look over this farm—it is a grand object lesson of what hustling can accomplish. Besides the four hundred acres in crop, over one hundred and fifty acres more can be broken out, and the balance is splendid hay meadow, with a spring creek running through it. It is in a prosperous section, and is surrounded by successful farmers, just four miles from Ponoka. The owners are to be congratulated on their venture, and if there is not a record-breaking crop, it will not be on account of their methods of farming.

Lacombe High School Basket Ball

The Lacombe High School Basket Ball team met defeat in the first game of the season played here on Saturday afternoon last.

when they met the Red Deer formidable Six. The Lacombe girls not being in practice were not able to make much headway against the Red Deer super-six who have an indoor basket ball court in their city and can practice rain or shine. The game however was all that could be expected. The Lacombe girls are good losers and are determined to play until they are finally triumphant. The score was 11 to 7 at the finish. The return game will be played in the near future.

Lacombe Bull Sale

Those interested in securing pure-bred bulls are again reminded of the association auction sale of bulls to be held at Lacombe on May 27th and 28th. The sale will be conducted by the Alberta Cattle Breeders Association; the judging will take place on the afternoon of the 27th, and the sale will commence at 9:30 the morning of the 28th of May with Auctioneer S. W. Paisley of Lacombe on the stand. There are one hundred and thirty four bulls entered as follows:—63 Herefords, 58 Short horns, 11 Aberdeen Angus and 2 Red Polled. The Association pays freight at a nominal rate to the buyer's nearest station and the animals are loaded on the cars by the sellers. Catalogues may be obtained by writing to E. L. Richardson, secretary Alberta Breeders Association, Calgary.

C. P. R. May Take Lacombe Railway

It is rumored on good authority that the C.P.R. will take over from the government Lacombe to Rimby Railway in the near future. Premier Stewart saw some of the officials on his recent trip east, and they considered the matter kindly.

It's Up to You!

Why should you go through life with half sight, or poor vision? The other day I fitted a man with glasses who had gone through life so near sighted that he could not recognize a friend across the street. This man had never know the joy of clear vision, and it was a pleasure to see his delight when he viewed distant objects for the first time.

Then there is a person who has a headache after reading for a short time. It is more painful that the near sighted condition, but yields equally when proper glasses are worn. If you are having trouble with your eyes, have them tested.
